KYRIBA FACT SHEET

Kyriba Mobile

AI-Powered Liquidity Management at Your Fingertips

Complimentary for Kyriba customers, the Kyriba Mobile application extends core treasury and payments management functionality from desktops to mobile devices. With integrated agentic AI (TAI), real-time reporting dashboards, and secure payment workflows, CFOs and treasurers can make informed, time-sensitive financial decisions at their convenience.

Agentic AI, TAI, Now on Mobile

TAI is available on Kyriba Mobile to deliver powerful treasury insights through natural conversations:

- Access complex treasury data through simple conversational queries, either by typing or by voice-to-text
- Get the same AI-powered insights as the desktop version on-the-go
- Available on smartphones and tablets running on iOS or Android

Real-Time, Secure Payment Approval and Signature

Kyriba Mobile provides access to real-time, secure payment information with the same approval process as the desktop application. With Kyriba Mobile, you can:

- Activate push notifications and get notified immediately when pending payment approvals are ready
- Filter your payments, e.g., only view payments with attachments
- Swipe to validate and approve single and multiple payments
- Sign payments digitally with dual-factor controls
- View fraud alerts with details, including:
  - Transaction amount and status
  - Beneficiary names, bank account details, and BIC
  - Issuer names and last action user
  - Issuer bank, account details, and BIC

Stay Informed with Kyriba Analytics

Kyriba Mobile offers the same Kyriba Analytics experience as the desktop version, delivering integrated and pre-built analytics for Kyriba Cash, Liquidity, Treasury, Payments, Risk, Compliance, and Working Capital modules and data.

Kyriba Mobile users can:

- Run and share any report directly from mobile device via email
- Drill down into visuals and tables
- Navigate public and private views
- Search reports across all libraries
- Access selected reports, bookmarks, and insights
- Personalize metrics into your data

Seamless Integration: Dashboard, Online Reporting, and Task Management

With Kyriba Mobile, users can access all Kyriba reporting dashboards and manage treasury workflows:

- Access Kyriba Mobile's Reporting dashboard menu with a single click to view the same graphics as Kyriba's Home and Dashboard pages
- Search and highlight report content for a more productive mobile user experience
- Bookmark important reports for quick access to your most-used content
- Manage and share tasks with Kyriba's own taskbar (the "Task Monitor")
- View color-coded status updates to easily see if tasks have successfully completed or need further attention
- Personalized homepage featuring your most frequently used features and workflows

Premium Experience on Tablets

Kyriba Mobile delivers a premium experience on tablets:

- Fully responsive design that adapts to your device size
- Enhanced layouts with side-by-side views on tablets
- Professional-grade interface suitable for executive presentations
- Same functionality across all devices - phone, tablet, and desktop

Supported Mobile Devices

The latest version of Kyriba Mobile is supported on the following devices:

- iPhone®
- iPad®
- Android™ phones and tablets

Available globally with support for multiple languages.

Enterprise-Grade Security

Securely connect and login with:

- Kyriba user ID and password
- Dual-factor authentication (SMS, TOTP, YubiKey incl. NFC-enabled physical keys)
- Single sign-on (SSO) via all major providers (Okta, ADFS)
- Biometrics (Face ID, Touch ID)
- SWIFT-certified: follows SWIFT best practices for financial security
- Device management support: can be deployed through corporate app stores
