KYRIBA FACT SHEET

Kyriba for the Public Sector

Advanced Treasury and Connectivity Solutions for Government Agencies, Counties, Municipalities, and Public Organizations

Kyriba delivers trusted treasury, payments and connectivity solutions for Public Sector organizations—covering federal agencies, state governments, counties, municipalities, and public authorities. Our secure, cloud-native platform centralizes cash visibility, automates workflows, and provides actionable insights to optimize resource allocation and enhance transparent governance.

Why Public Agencies Choose Kyriba

- Facilitates Treasury Single Account (TSA) implementation, tracks cash by fund, solves budget management complexity and fraud prevention challenges.
- Automates manual tasks (e.g., Excel, Microsoft Access) to increase productivity and reduce risk.
- Provides government-specific analytics designed for budget cycles, revenue volatility, multi-fund accounting, and compliance requirements.
- Demonstrated 329 hours monthly productivity gains, 122 daily hours saved in cash positioning, and enhanced transparency.
- Continuous innovation in AI, automation, and treasury digitalization with government-grade security.

What Sets Us Apart

- Unmatched system integration with connections to 9,900+ banks, comprehensive government ERP support, and fully managed Connectivity-as-a-Service (CaaS).
- $15 trillion in annual payments processed for 3,000+ global customers, with proven public sector transformation results and TSA implementation expertise.
- Industry's only Trusted AI architecture with embedded LLM technology ensuring complete data sovereignty for sensitive government operations.
- Comprehensive fraud prevention, compliance automation, and working capital optimization solutions designed for public sector accountability.

Unlocking Value with Kyriba
