

Digital Transformation Assessing the Business Impact

KYRIBA VALUE ENGINEERING

A validated, collaborative value assessment for documenting the total value of current state vs. future state.

Kyriba's Value Engineering team enables a successful selection, deployment and value realization of a Treasury and Finance Digital Transformation Initiative

THREE KEY FUNDAMENTAL QUESTIONS WILL BE ANSWERED

What to change?

While the status quo may be comfortable, doing things "the way we've always been doing them" can put your business at a strategic disadvantage.

Example: Cash/liquidity forecasting

Why change?

Digital upgrades come with a price that must be justified. How do you quantify the financial outcomes of change? A detailed ROI analysis offers the most insight.

To Do: Build a business case for the project

Why change now?

What is the risk of not acting? Leaders must identify the pitfalls and potential impact of current practices and related controls.

Assessment: Why this project deserves priority and implications of delay

The Value Engineering lifecycle

Value Discovery

What do you want to achieve? A value assessment answers what, why and why now.

Value Monitoring

Track the identified KPIs during implementation.

Value Realization

Determine the value realized post go-live and additional steps in transformation journey.

Maturity Framework

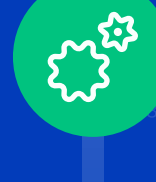

Benchmark current state vs. peers based on capability maturity model

Productivity

Cash Optimization

Risk Mitigation

Ad-Hoc

Everyone figures it out themselves / unstructured

Emerging

Sophistication within Excel, some coordination

Standardizing

Legacy platforms, workarounds

Strategic

Best in class, standardized, automated, auditable, integrates with ERP

The Kyriba Value Engineering Steps

Executive Sponsorship

Designate an executive to sponsor for a complimentary assessment.

Active Participation

Complete a quick, web-based assessment, and join a workshop to review and gain insights on your current processes, challenges, and opportunities.

Commit to Act

Emerge from the review with board-ready set of recommendations.

Sound interesting? Align your organization's strategic objectives with measurable outcomes. Collaborate with Kyriba on a complimentary value assessment today.
