

Customization and Robust Reporting Propels Delaware Life's Productivity

KYRIBA SUCCESS STORY

“ We moved from the stone age to Kyriba, which is obviously the premier Treasury Management System in the industry, saving us a ton of time and effort.”

— *Joel Smith*
Assistant Director of Finance, Delaware Life

Before Kyriba

- Legacy TMS provider riddled with many problems
- Limited support, heavily manual

Kyriba Modules Adopted:

- Cash Accounting
- Payments
- Cash Forecasting
- Bank Analysis

Positive Business Outcomes:

- Reports that used to take 15-20 minutes a day to generate - out of each bank portal - now are instantaneous
- Roughly 50 reports per day are now automated, saving multiple analysts hours of work
- Hundreds of transactions per day are now auto reconciled

"One of the best things about Kyriba is the customer service. Every time I get on the phone, somebody picks up, and immediately we get attention. I can't stress how important that is for us. In treasury, everything is right now. If you have an issue, you need it done in an hour. We can 100% count on Kyriba to be there."
